

We have started to learn the words from the Y3/4 list:

eighth experience experiment extreme
famous favourite February

Keep practising! If you get an answer incorrect, make sure you have a good look at the correct answer. Try writing those trickier ones down to learn separately.

Remember to read at home regularly (at least 10 minutes a day) and hand in reading diaries on Mondays to be checked- you could get a "Read to Succeed" ticket and win a book!

1.) Next week, we will be starting a new English topic centred on explorers! Your task is to design a survival kit or kit list for an exploration of your choice. Will you travel through the sweltering terrain of the Amazon rainforest or the sub-zero temperatures in Antarctica? Might you venture through unexplored regions in our vast oceans, or maybe even need the assistance of a rocket to soar to planets unknown? Think carefully about the important pieces of equipment, food and water you may need for the journey!

2.) We are having a big push with spellings in Year 3 this term- we've found that the children really enjoy using the website Spelling frame to support their spelling rules and practice them with some exciting games. Use the link below to try out some of this week's spellings!
<https://spellingframe.co.uk/spelling-rule/46/28-Word-list-years-3-and-4---ei--to-fe->

3.) The children have done a brilliant job using written methods to solve four operations calculations and word problems. We would love to have some posters explaining how to use each method (column addition and subtraction, grid multiplication and bus stop division) with some worked examples for our maths displays!
